Sir:

In response to the Office Action mailed May 28, 2004, regarding the above-identified patent application, Applicant elects without traverse method claims 1-7. Claims 8-23 may be withdrawn from further consideration, without prejudice to the presentation of such claims for examination in a continued patent application.

In regard to the Examiner's requirement for election of a single disclosed species for prosecution on the merits, the elected species is that shown in Figs. 1-3 of the patent drawings. Applicant contends that pending method claims 1, 2, 3, 4, 6, and 7 all describe methods that are practiced by forming the assemblage shown in Figs. 1-3 of the patent drawings.

Respectfully submitted,

CAHILL, von HELLENS & GLAZER P.L.C.
